Built-In Printer Series 200

5V

Centronics/RS232

Impact- / Thermo-Printer

|<- 58->|

Figure:

Product description:

The built-in printer has a solid plastic housing with a removable front cover. The ABS material is resistant against many chemical influences. The compact controller board is integrated in the housing. The printer is mounted on a front panel by 4 holes.

Dimensions: W x H x D
 over all: 114 x 113 x 51
 built-in: 100 x 100 x 42

Features:

The transparent cutting edge is made of a very hard material and allows a look at the last printed line. The maximum diameter of the paper roll is 38 mm. The controller board is a standard equipment of the printer and can be delivered with different interfaces. The printer can be ordered with or without paper feed button. Available colours of housing: black (standard) or light grey

How to change paper roll and ink ribbon:

First you have to slide off the front cover. Now you can easily handle all components.

Connectors: Power supply:

4-pin
 5V DC for Controller

Data Connectors:

10-pin (RS232)
 26-pin Centronics)

Printing Units					
Impact					
Type	Char./Line	Lines/sec	Power Supply	Controller-Board	Interface
M-160	24	0,7	5V	ST-100 / ST-101	Par. Centronics Ser. RS232 Ser. TTL
M-164	40	0,4	5V		
M-180	24	1,7	5V
